Feedback Process & Feedback Report

A.Y. 2021-2022

Bharati Vidyapeeth's College of Engineering for Women, Pune-43

Feedback Mechanism

The centralized feedback committee of the Institute collects the online feedbacks from institute stakeholders from time to time. Feedback from students, teachers, alumni, and employers are intensively applied for enhancing the overall development of the Institution. At the end of every semester, the committee collects and analyzes the department wise faculty course feedback from students for a comprehensive progression of the course teachers. The committee also collects the syllabus and its transition feedback from students as well as teachers at the end of every academic semester. The analysis of the feedback is discussed by the institute representatives during the syllabus setting and detailing workshops organized by the University and Board of Studies (BoS) meetings. Each department conducts a graduate exit survey of final-year students about the teaching-learning process, curriculum, co-curricular extracurricular activities, infrastructure facilities, Training/Placement activities, continuous improvements, and industry supports. The corrective action plan is implemented after discussions of the Head of the Institute

Based on your experience, what can BVCOEW improve upon?

12 responses

-

Maybe more of practical assignments rather than written ones

Lab Practice should be emphasized more.

Practical

Library management system need to RFID based or more advance technology can be used. Online fees payment need to more preferably used instead of challan system.

BVCOEW is best

Incorporate more seminar and workshop for hands-on practical implementation

Visual learning and real life teaching

The equipment in the laboratory can be improved greatly, most of them were not in working conditions in my last semester.

Extracurricular activities and celebration of annual function every year.

Neet industry visits and more practicals are required

Infrastructure

Mam is really good and helpful

Teaching is understandable

Okay

Firstly data structure is a very important and tough subject. I was finding difficulty to study but after attending all the lectures I understood each and every concept very well. Mam's teaching way is appreciable.

She is teaching good but she didn't properly explain the concepts and examples.

Teaching is understandable

Due to absence of faculty for a long period, understanding the subject has become very difficult

Understanding of concepts in EM3 is quite tough. But we are also trying to understand the topics. Mam is also teaching well. But only request is that please Complete all the syallabus before end sem exam.

I cannot understand what ma'am teaches

Session should be more effective and clear.

Teaching is understandable

Good

Software engineering is very nice and theoretical subject. Gives information regarding the software development life cycle, cost estimation of project etc. I liked the teaching way of Mam. And the contents in the PPT is easy to understand. Mam teaches very well.

Understandable teaching

It should be more interesting

Makes concepts clear and easy to understand

She's the best and should be the HOD.

Excellent teaching

Good

Microprocessor is a difficult subject until now. But Mam is trying and working hard to make the subject easy to understand for us. Her ppts, notes and materials is very useful to us. Way of teaching is appreciable.

Everything is understandable!!!

Good

Sir teaches very well. He provides examples and questions so that we can easily understand the topics. He encourages students to work hard and study.

Fine

Lectures should conduct regularly and teaching should be more effective and interesting.

Nice

Unable to understand what he tell, pronounciation not clear

Very good

Thankful to have ma'am as Subject teacher....ma'am had made the subject interesting and it was great experience

Ma'am has been very supportive and she made the subject easy to understand.Her time to time guidance made us aware about subject.

I'm clear with all concept . Thank you mam for that.

Excellent techer and best councellor

Good teacher and counceller ever

Her teaching is really excellent

Professor Chavan is a very Sweet and Patient teacher who takes the initiative to give individual explanations to students if they don't understand a concept even if means that that has to repeat the whole concept all over again. She makes sure that we are prepared for any and every type of question that can be asked for her subject making sure the subject content and concepts are clear for every student.

Best GFM and teacher as well..

Best GFM and teacher

Best GFM ever

Her teaching methods is very great

Mrs Chopade is a wonderful teacher. She makes sure that our basic concepts are clear, thus making it easier for us to understand the rest of the subject matter easily. She makes sure we have ample practice in solving numericals and answering questions related to the subject so that we are never unprepared for an examination. She has always been supportive of all her students and has helped us all settle down quickly and easily into our new college environment. We are very glad to have her as our GFM.

Sir is absolutely right on his place,they are very well handling whole class and communicate to all.sir tried to understand our problems and encourage ourself,try to relax our mind and making easy to each and every problem,thing by discussing

Excellent!!

Kiran sir taught every concept very well along with sufficient examples. Problems in assignment and tutorials helped me to understand the topics even better. He teaches every concept right from the basic level to make it easy to understand.

Best faculty

...

Sir explains everything with complete knowledge and also revises previous 12 std content so that we understand the topic clearly. Also sir takes examples on every topic which makes us confident about that topic.

Sir's teaching is very good everything get cleared in the class only sometimes some difficults come then we used to ask him and he makes it clear after all we cant depend on teachers we also add some efforts.overall sir teaches very nice

Excellent teacher

Sir is very good to explaining concepts or anything.they tries to make sure that all students getting his point and all girls also understand veryy well his subjects and otherwise sir giving extra information related studies.how to manage time, what is importance of study and time.all over sir is excellent

Kute sir taught the subject really well. He made sure that the lectures are interactive. For some complex topics like vehicle system and manufacturing he shared some videos which helped me to visualise and understand better.

Doing partiality in students.gives more attention to 2-3 students.they had did partiality at making CR's.they had given extra materials for study to only three students.so please take action on this it's my humble request from our class

Our GFM

Sir explains all the concepts with complete knowledge and also takes relevant examples for us to understand. During the entire first semester SME was one of my favorite subjects because of sir's teaching. Also I scored out of marks because I could understand the topic well

Sir also teaches very nice every concept got cleared but same problem sometimes we get difficulty and he used to clear it nicely again same we have to put some efforts

Very helpful as a gfm and Good at teaching

Good teacher

Teaching of sir is great and concepts are clearly understood...just at the ending of first semester there was a rush in finishing the syllabus...so the ending topic weren't clearly taught

All ok.

Best Professor !

Sir teaches well.i understand all things neatly

Taught the subject very nicely and created curiosity about the subject in our minds

Thank you Mam for helping us

Got interest in programming thoroughly

Ma'am has madhe PPS easy to understand and practice

Teacher is good.Unable to grasp the concepts due to poor communication and Voice clarity. Little louder voice can convey the words upto every student while being in a lecture.Lack of Internet WiFi facility in the required classrooms. Overalll review:Not so good,Not so happy.

Prof. Sawant is a very cheerful teacher who loves her subject. She doesn't hesitate to explain out-of-syllabus queries from students regarding her subject and encourages them to go beyond their syllabus and practice new kinds of problems. She's always ready to help us with our doubts and is a very friendly teacher who knows how to ease the atmosphere before starting her lecture. This helps in maintaining an optimum atmosphere for learning and also encourages more students to ask doubts which leads to healthy competition among the students.

Graphics is very interesting subject and with the help for ma'am her tricks it is more easy to apply and draw the things

Good.

Prof. Pawar is a very good graphics teacher. He knows how to explain even the most difficult concepts or constructions in a very simple way. He keeps checking on us to confirm if we've understood everything he has taught in class and doesn't hesitate to explain the same concept to various students many times and if the student still faces difficulty then he explains it to them individually till the student doesn't understand. He is a wonderful teacher who gets along really well with his students and makes sure they're in the best mindset before starting a lecture.

Excellent.

Physics was a subject I was always scared of, because of its theoretical part. The numericals were easy but the theory always troubled me. I highly respect Prof. Patwardhan because he made Physics seem really easy for me. The way he explained concepts and derivations was very easy to understand. His method of teaching was such that one could remember most of the content during the lecture itself and would just have to revise it later to completely cement it into our brains. He is a very sweet and caring teacher who never hesitates to help students who are in need of his help. His encouragement and valuable guidance in departments other than his subject are also very helpful. He teaches us about things that we must remember throughout our lives, giving us pointers to improve our lives in the direction that we have chosen to take them. We shall forever be grateful to him.

Prof. Vitekar is a wonderful teacher who knows his subject matter very thoroughly. He knows how to explain the concepts to the students with ease. Apart from studies, his knowledge regarding the technical world out there is really amazing since it gives us students an insight into what is happening in the world as of now and what we need to know about it. He encourages us to be curious about the right things and helps us solve any questions we have regarding any topic. He is a very supportive teacher..

Based on your experience, what can BVCOEW improve upon?

12 responses

-

Maybe more of practical assignments rather than written ones

Lab Practice should be emphasized more.

Practical

Library management system need to RFID based or more advance technology can be used. Online fees payment need to more preferably used instead of challan system.

BVCOEW is best

Incorporate more seminar and workshop for hands-on practical implementation

Visual learning and real life teaching

The equipment in the laboratory can be improved greatly, most of them were not in working conditions in my last semester.

Extracurricular activities and celebration of annual function every year.

Neet industry visits and more practicals are required

Infrastructure

She is teaching good but she didn't properly explain the concepts and examples.

Teaching is understandable

Due to absence of faculty for a long period, understanding the subject has become very difficult

Understanding of concepts in EM3 is quite tough. But we are also trying to understand the topics. Mam is also teaching well. But only request is that please Complete all the syallabus before end sem exam.

I cannot understand what ma'am teaches

Session should be more effective and clear.

Teaching is understandable

Good

Software engineering is very nice and theoretical subject. Gives information regarding the software development life cycle, cost estimation of project etc. I liked the teaching way of Mam. And the contents in the PPT is easy to understand. Mam teaches very well.

Understandable teaching

It should be more interesting

Makes concepts clear and easy to understand
